

Spelling Stations (Adjusting for home)

Cube Station

You can use cubes/Lego pieces/sweets/objects/paper to lay out the sounds you hear. If you don't have any of these items, not a problem! Be creative!

Remember

- Vowels: a, e, i, o, u
- If you have two letters that make the same sound then both cubes/lego pieces/objects/paper join or placed close together in some way.
- Dot and dash the word (dots: one sound dash: two letters that make one sound)
- Vowels and Consonants are two different colours.

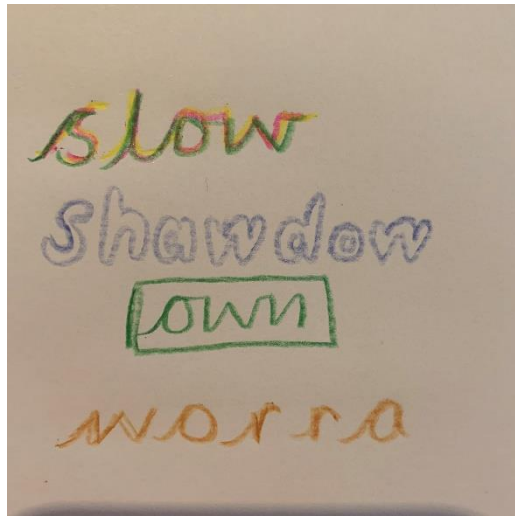

Spelling Detectives

Finding words with the spelling rule in books or any text.

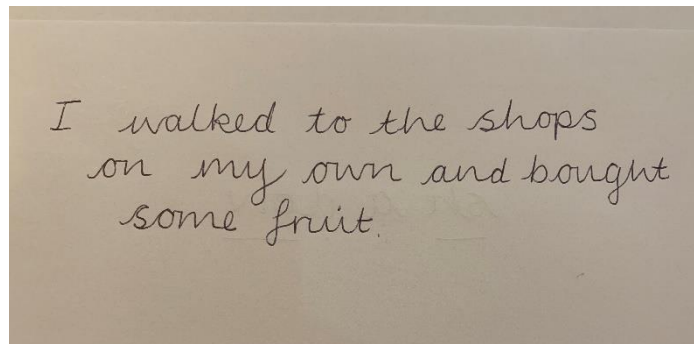

Creative Patterns

Practising your spelling words in rainbow writing, writing backwards, bubble writing or words in shapes.

Sentence Construction

Using your new spelling words in a sentence. Try to use conjunctions such as 'and' 'but' to make your sentences longer. Think about adding some adjectives in your writing.

Alien Station

Add some endings to your spelling words. Try adding 'ed' 'ing'. Does it make sense? Can you add some letters to the new sound? Have you created a real or alien word?
